About Developmental-Behavioral Pediatrics

Thank you for your interest in Developmental-Behavioral Pediatric Services at Child and Adolescent Health Specialists, PC. Our physicians have many years of experience specializing in diagnosing and treating children with autism spectrum disorders, problems of attention/learning, many mood disorders, developmental delay and behavior problems associated with these issues. Our physicians are certified as diplomates in Developmental-Behavioral Pediatrics by the American Board of Pediatrics.

For additional information see our website: www.childhealthspecialists.com

Insurance/Billing/Referrals

Our office will submit claims for Developmental-Behavioral appointments to the insurances with which we are contracted, including most major health insurances. You can verify we are in your specific plan network on your insurance website ("Find a Doctor") or by calling your member services department. *Please note we are contracted medical providers, not mental health.*

If your child is covered by any insurance that does not list our providers, we recommend that you call the insurance company to verify whether they will reimburse for these services as "out of network." In that case, you would be required to pay the full amount at the time of the appointment. We will give you a receipt with the appropriate codes to submit to your insurance company for reimbursement.

If your insurance is an **HMO**, you will need to obtain a referral from your primary care doctor (PCP). If you wish to be placed on our cancellation list for a sooner appointment, you may request that your doctor date the referral effective the day you call for it rather than the date of the appointment you were originally given. Otherwise, in the event that your appointment is moved to an earlier time, your primary care doctor would need to provide a new referral reflecting the new date. If you do not have a referral on the date of your appointment, you will be required to pay for the visit in full. You may then submit our statement to your insurance company for reimbursement.

To bill any insurance company for a consultation appointment, a request from a professional is required. If you have an HMO, the referral from your child's PCP will serve as this request.

If your insurance is a **PPO**, we will need a written request for a consultation from the referring provider, whether this is your PCP, a therapist, teacher, etc. Please have the enclosed **Request for Consultation** form completed by your referring professional.

Scheduling Appointments

To schedule an appointment, complete and return the enclosed registration packet as soon as possible*. We will review your information to determine the appropriate type and time for your appointment(s). Following review, our office will contact you to schedule your appointment(s).

Outside Testing/Reports

Please bring copies of any relevant information to our office on the day of your appointment, eg. IEP, most recent school testing or reports, other evaluations. Please bring copies, **not** originals. Our office will not be able to copy them for you and we will not be responsible for loss of the originals. If you wish to have copies of any materials that our doctors send home for completion (e.g. developmental questionnaires), please copy them **prior** to returning them to the office. We will not be able to copy them for you and originals must be kept as part of our medical records.

The First Consultation Visit

We recommend that children other than the one who is being seen for the appointment not accompany you to the appointment as this can be a significant distraction. Children must be over 8 years of age to remain in the reception room without adult supervision. Please set aside approximately 1 ½ hours for your initial consultation appointment.

All efforts are made to make your child's experience comfortable. A nurse will obtain measurements, vital signs, and typically will perform an evoked otoacoustic hearing evaluation, and a vision screening (3 years of age or greater).

Following your consultation appointment, a summary letter will be sent to the referring physician or other professional with a copy to the parents.

Please be aware that additional reports (e.g. letters to schools) are typically not covered by health insurance plans. Such requests will require payment in advance.

Neurodevelopmental Testing Appointments

The doctor may schedule your child for neurodevelopmental testing following your consultation. Please set aside approximately 1½ hours for this appointment. Note that this is not the same testing provided by schools for a school-based evaluation and it is not a Neuropsychological Evaluation. Either of these may be recommended depending on the doctors findings.

*The registration forms should be filled out with black or blue ink as other colors will not show through fax or scanner.

Please feel free to call our office if you have any additional questions or concerns.

What specific questions or concerns do you wish to be addressed?		
		

Please Note: A parent or legal guardian <u>must</u> accompany any minor child to a developmental-behavioral pediatric appointment.

As a reminder, we recommend that children other than the one who is being seen for the appointments, not accompany you to the appointments as this can be a significant distraction. We realize sometimes this is not possible. In this case please bring something to occupy your child for approximately 1 1/2 hours.

Children must be over 8 years of age to remain in the reception room without adult supervision.

Insurance and Billing Information:

Our office will submit claims for Developmental-Behavioral appointments to all insurances we are contracted with if you have a verifiable active policy.

The following is a list of our most commonly applied insurance codes for Developmental-Behavioral Appointments. Please note this is not an inclusive list and may change without notice. If you have any questions or concerns about what your insurance will pay, or if you have a deductible plan, please contact your insurance provider's member services department for medical services prior to scheduling your appointment (s). Your insurance is required to inform you of your responsibility for services within 2 business days of your request. Please call our office if your insurance denies any of the codes listed below. By signing this waiver you understand that you are responsible for payment of non-covered procedures and insurance determined balances and agree to payment via your credit card on file.

Developmental Behavioral Pediatrics Codes: Some appointments may be via telehealth.
